Contract Compliance Review Tool (All Services)

ADMINISTRATIVE INDICATORS & GUIDANCE

Review Year July 2019 through June 2020

Shaded indicators represent data collected for Waiver Evidentiary Reports or Home and Community Based Services Transition Plan Reporting.

A1	**Administrative / Operational Issues** *A1 indicators are scored met/ not met.*	***Please refer to the Source Documents referenced for specific requirements. Key Indicators are based on DDSN Directives, Service Standards, and Medicaid Policies.***
A1-01	For those for whom outlier status has been approved due to the need for enhanced staff support, the Board / Provider provides the additional support as outlined in the approved request.	250-11-DD requires that residential service providers must retain staff schedules that document the increased level of supervision is being provided. The QIO will verify the presence of additional staffing support as well as other supports (i.e., Behavior Support Plan and training [Habilitation] strategies) that are needed in order to decrease the need for outlier funding. Source: MOA DDSN/HHS, 250-11-DD
A1-02	For those for whom outlier status has been approved due to the need for 1:1 staff support, the Board / Provider provides the additional support as outlined in the approved request.	At the end of each shift that 1:1 Supervision was provided the direct care staff assigned to provide the 1:1 supervision must document that the 1:1 supervision was provided. The QIO will verify the presence of additional staffing support as well as other supports (i.e., Behavior Support Plan and training [Habilitation] strategies) that are needed in order to decrease the need for outlier funding. Source: MOA DDSN/DHHS, 250-11-DD
A1-03	The Board / Provider has a Human Rights Committee that is composed of a minimum of 5 members and includes representation from a family member of a person receiving services, a person representing those receiving services or a self-advocate nominated by the local self-advocacy group, and a representative of the community with expertise or a demonstrated interest in the care and treatment of persons (employees or former employees must not be appointed). The Board/ Provider has a Human Rights Committee member list (which identifies the above), along with an attendance log for each Human Rights Committee meeting.	South Carolina Code Ann. 44-26-70 requires that each DDSN Regional Center and DSN Board establish a Human Rights Committee. Contract service providers may either use the Human Rights Committee of the local DSN Board or establish their own Committee. Contract providers must have formal documentation of this relationship. Source: South Carolina Code Ann. 44-26-70 and 535-02-DD
A1-04	The Human Rights Committee will provide review of Board / Provider practices to assure that consumer's due process rights are protected.	Minutes shall be taken of each meeting and shall reflect the date and time of the meeting, those Committee members present and absent, and a record of decisions and recommendations in a manner that readily identifies the issues reviewed, the decisions reached, and the follow-up that is necessary. In addition to reviewing Behavior Support Plans and Psychotropic Medications, the provider must document the HRC's review of any use of emergency restraints. The

		HRC must also receive notification of alleged abuse, neglect, or exploitation. Each Human Rights Committee, in coordination with the Agency, may establish its own mechanism to receive such reports. The HRC should also advise the DSN Board or contract provider agency on other matters pertaining to the rights of people receiving services and other issues identified by the Human Rights Committee or Agency. The sharing of this information and related discussion must be documented in the HRC meeting minutes. Source: 535-02-DD
A1-05	Board / Provider implements a risk management and quality assurance program consistent with 100-26-DD and 100-28-DD.	Board / Provider demonstrates implementation of risk management/quality assurance principles and signed, dated minutes from the Risk Management Committee quarterly reviews through the following measures: • designated risk manager and a risk management committee • written policies/procedures used to collect, analyze and act on risk data • documentation of remediation taken; • correlating risk management activities with quality assurance activities; • developing contingency plan/disaster plan to continue services in the event of an emergency or the inability of a service provider to deliver services. Plan must be reviewed annually. • For residential and day service providers: Review of medication errors and remediation (if not conducted through a separate committee for this purpose, documentation must be available). • For residential and day service providers: Review of any restraints or restrictive procedures used to ensure compliance with applicable directives. • Review of any GERD/ Dysphagia Consultation reports to ensure there has been follow-up on recommendations. Source: 100-26-DD and 100-28-DD
A1-06	Board / Provider demonstrates usage of the current incident management profile data report to: • evaluate provider specific trends over time • evaluate/explain why the provider specific rate is over, under or at the statewide average • demonstrate systemic actions to prevent future incidents/ allegations.	Provider must utilize data available within the DDSN Incident Management System for the prior 12 month period. In the event the provider has not had any reports of incidents, they must document the review of trend data and discuss continued actions to prevent incidents and respond where appropriate. Residential and Day service providers must also document review of data entered in the Therap GER module.
A1-07	The Board / Provider follows SCDDSN procedures regarding Medication Error/ Event Reporting, as outlined in 100-29-DD.	For DDSN Residential and Day Services Providers: Determine if the Board / Provider has developed an internal database to record, track, analyze, and trend medication errors or events associated with the administration of medication errors. The method for calculating medication error rate has been defined in DDSN Directive 100-29-DD. Source: 100-29-DD

A1-08	The Board/ Provider utilizes an approved curriculum or system for teaching and certifying staff to prevent and respond to disruptive behavior and crisis situations.	*Not Applicable to Case Management Providers Source: 567-04-DD
A1- 09	Upper level management staff of the Board/Provider conduct quarterly unannounced visits to all residential settings to assure sufficient staffing and supervision are provided. Documentation of the visit must include the date and time of the visit, the names of the staff/caregivers and consumers present, notation of any concerns and actions taken in response to noted concerns.	When a residential setting does not utilize a shift model for staffing (e.g. CTH I and SLPI) visits need only to be conducted quarterly. The Provider shall conduct quarterly unannounced visits to all of its residential locations across all shifts excluding third shift in Community Training Home I and Supervised Living I Programs, including weekends, to assure sufficient staffing and supervision per the consumers' plans. Managers should not visit homes they supervise but should visit homes managed by their peers. Senior management may visit any/all of the homes. Documentation of the visit must include the date and time of the visit, the names of the staff/caregivers and consumers present, notation of any concerns and actions taken in response to noted concerns. SLP II should include visits to all apartments. **Please note**: It is not necessary to visit individual SLP II apartments, during 3rd shift, although 3rd shift checks to the complex/staff review are still required. CIRS and CTH I locations do not require unannounced 3rd shift checks. *Quarterly = 4 times per year with no more than 4 months between visits. Source: Contract…Capitated Model Article III
A1- 10	The Board / Provider /Intake Provider keeps service recipients' records secure and information confidential.	Source: 167-06-DD
A1- 11	The Provider agency of HASCI Division Rehabilitation Supports (RS) maintains required administrative records for the RS Program.	Source: Rehabilitation Supports Manual
A1- 12	Board/Provider conducts all residential admissions/discharges in accordance with 502-01-DD.	Source: 502-01-DD
A1-13	Case Management providers must have a system that allows access to assistance 24 hours daily, 7 days a week.	Source: SCDDSN Case Management Standards
A1- 14	The Residential Habilitation provider must have procedures that specify the actions to be taken to assure that <u>within 24 hours</u> following a visit to a physician, Certified Nurse Practitioner (CNP), or Physician's Assistant (PA), all ordered treatments will be provided. The procedures must include the specific steps to be taken and by whom. The procedures must be current.	Source: Residential Habilitation Standards
A1- 15	The Board/ Provider follows procedures regarding Medication Technician Certification program, as outlined in 603-13-DD.	Source: 603-13-DD
A1- 16	The Provider demonstrates agency-wide usage of Therap for the maintenance of Case Management records according to the implementation schedule approved by DDSN.	Source: DDSN Therap Requirements

A1- 17	The Provider demonstrates agency-wide usage of Therap for the maintenance of Residential Services records according to the implementation schedule approved by DDSN.	Source: DDSN Therap Requirements

A3-57	Annually, employees are made aware of the False Claims Recovery Act, that the Federal government can impose a penalty for false claims, that abuse of the Medicaid Program can be reported and that reporters are covered by Whistleblowers' laws.	Source: Contract for … Capitated Model and Source: Contract for … Non-Capitated Model
A3-58	The "Swallowing Disorders Checklist" is completed annually.	Annual completion of the Swallowing Disorders Checklist is required for individuals receiving residential services. Staff can use the checklist for an individual receiving day services if there is an ongoing concern. The protocol must be completed for any choking incident that occurs while at the Day Program. Source: 535-13-DD
A3-59	If a critical incident due to choking (with airway obstruction) occurred or if a non-obstructing choking incident occurred, "yes" responses were noted on the "Swallowing Disorders Checklist" and the "Swallowing Disorders Follow-Up Assessment" was completed not more than five business days after the incident and submitted to DDSN for review.	Source: 535-13-DD
A3-60	If "yes" was noted as a response to any item (other than choking) on the "Swallowing Disorders Checklist", the "Swallowing Disorders Follow-Up Assessment" was completed and submitted with the "Checklist" to DDSN for review, not more than ten business days after responding "yes" to an item on the "Checklist".	Source: 535-13-DD
A3-61	All actions/recommendations included in "Required Provider Follow-Up" on the Swallowing Disorders Consultation Summary, were added to the person's plan (residential, day services or case management) and implemented within 30 calendar days or reason for non-implementation was documented.	The person's Plan (residential, day services or case management) should be amended to include any actions/recommendations noted in "Required Provider Follow-Up" resulting from the review of the "Checklist" and the "Assessment". All actions/recommendations noted in "Required Provider Follow-Up" must be implemented within 30 calendar days or there must be written justification for non-implementation. Source: 535-13-DD

SERVICE AREA INDICATORS & GUIDANCE

Review Year July 2019 through June 2020

IN	Intake/ Operational Issues	***Please refer to the Source Documents referenced for specific requirements. Key Indicators are based on DDSN Directives, Service Standards, and Medicaid Policies.***
IN-01	Contact with the Intake service user is made within five (5) business days of the receipt of an authorization for Intake or reflects more than one (1) attempt to contact within five (5) business days.	Source: Intake Standards
IN-02	Documentation includes sufficient information to prove that a thorough explanation of the following was provided to the service user or his/her representative: • The process for Intake including next steps, • DDSN as an agency and how services through DDSN are provided; • Services potentially available through DDSN is determined eligible for services, including the criteria to be met in order for services to be authorized.	Source: Intake Standards
IN-03	Intake activities are documented within five (5) business days of the occurrence of the activity.	Source: Intake Standards
IN-04	Contact with or on behalf of the service user occurred, at a minimum, every ten (10) business days.	Source: Intake Standards
IN-05	If terminated, Intake was only terminated when, during a thirty (30) calendar day period, at least three (3) consecutive attempts to contact the service user/ representative were unsuccessful or by request from the individual who is going through the Intake Process.	Source: Intake Standards
CM	**Case Management**	***Please refer to the Source Documents referenced for specific requirements. Key Indicators are based on DDSN Directives, Service Standards, and Medicaid Policies.***

RS1	Residential/ Health Services	*Please refer to the Source Documents referenced for specific requirements. Key Indicators are based on DDSN Directives, Service Standards, and Medicaid Policies.*
RS1-01	For new residential admissions, prior to providing residential habilitation, a preliminary plan must be developed to ensure health, safety, supervision and rights protection while the person is undergoing functional assessment for goal planning. At the time of admission, the preliminary plan for the person must be implemented.	Prior to providing residential habilitation, a preliminary plan must be developed to ensure health, safety, supervision and rights protection while the person is undergoing functional assessment for goal planning. At the time of admission, the preliminary plan for the person must be implemented. When assessments are completed and training needs/priorities have been identified with the participation and input of the person, the residential support plan will be completed and will replace the preliminary plan.
RS1-02 R	**The Residential Support Plan must include the person's goals/objectives related to Residential Habilitation including:** **a) The type and frequency of care to be provided** **b) The type and frequency of supervision to be provided** **c) The functional skills training to be provided** **d) Any other supports/interventions to be provided** **e) Description of how each intervention will be documented.**	Source: Residential Habilitation Standard 4.4
RS1-03 R	**A comprehensive functional assessment:** **A. Is completed prior to the development of the initial plan** **B. Is updated as needed to insure accuracy.**	The assessment does not have to be re-done annually. It is acceptable to review the assessment and indicate the date of review and the fact that the assessment remains current and valid. This notation must be signed or initialed by the staff that completed the review. Source: Residential Habilitation Standards
RS1-04 R	**Within 30 days of admission and within every 365 days thereafter, a residential plan is developed:** **a) that supports the person to live the way he/she wants to live** **b) that reflects balance between self-determination and health and safety** **c) that reflects the interventions to be applied.**	Source: Residential Habilitation Standard 4.1
RS1-05 R	**The effectiveness of the residential plan is monitored and the plan is amended when:** **a) No progress is noted on a goal** **b) A new strategy, training, or support is identified; or** **c) The person is not satisfied with the support.**	As a general rule, if no progress has been noted for three (3) consecutive months with no reasonable justification for the lack of progress, the plan must be amended. Source: Residential Habilitation Standard 4.7
RS1-06	A quarterly report of the status of the interventions in the plan must be completed.	Source: Residential Habilitation Standards
RS1-07	People are informed of their rights, supported to learn about their rights, and supported to exercise their rights.	All people residing in CTH I, CTH II, CRCF, CIRS, SLP I and SLP II must be informed of their rights and supported to learn about and exercise their rights. Source: Residential Habilitation Standard 2.0
RS1-08	Personal freedoms are not restricted without due process.	Due process means human rights review of any restriction. The person must be offered the opportunity to attend the HRC meeting and have someone accompany them to assist in advocating

		for themselves, if they so desire. Verified by Service Notes. Source: Residential Habilitation Standards, Directive 535-02-DD
RS1-09	People are supported to manage their own funds to the extent of their capability.	Source: Residential Habilitation Standard 2.0 200-12-DD Management of Funds for Individuals
RS1-10	People who receive services are trained on what constitutes abuse and how and to whom to report.	All people who reside in CTH I, CTH II, CRCF, CIRS, SLP II and SLP I require training in what constitutes abuse and how and whom to report it. Source: Residential Habilitation Standard 2.2, Directive 534-02-DD
RS1-11	A legally enforceable agreement (lease, residency agreement or other form of written agreement) is in place for each person.	Source: Residential Habilitation Standard 1.3
RS1-12	People receive a health examination by a licensed Physician, Physician's Assistant, or Certified Nurse Practitioner who determines the need for and frequency of medical care and there is documentation that the recommendations are being followed.	The health care received is comparable to any person of the same age, group and sex. (i.e., mammogram for females 40 and above, annual or as prescribed by a physician pap smears, prostate checks for males over 50, etc.) Source: Residential Habilitation Standard 6.0 and 6.1
RS1-13	People receive a dental examination by a licensed Dentist who determines the need for and frequency of dental care, and there is documentation that the Dentist's recommendations are being carried out.	A person who is edentulous may be checked by a physician. Note: If a person has refused dental care, there must be documentation of this in the file. Source: Residential Habilitation Standard 6.0
RS1-14	Each resident must be provided with a key to his/her bedroom.	Source: Residential Habilitation Standard
RS1-15	Each resident must be provided with a key to his/her home.	Source: Residential Habilitation Standard
RS2	**Residential/ Behavior Support Services**	***Please refer to the Source Documents referenced for specific requirements. Key Indicators are based on DDSN Directives, Service Standards, and Medicaid Policies.***
RS2-01	Behavior(s) that pose a risk to the person, others, the environment, or that interfere with his/her ability to function in the environment are addressed.	Source: Residential Habilitation Standard 5.0, Directive 600-05-DD
RS2-02	Prior to the development of a behavior support plan, indirect assessment must be conducted, including a review of the DDSN Support Plan and, if they exist, existing behavior support plan and supervision plan.	Written information in the BSP and/or assessment file indicates that each component of the assessment was conducted. a) Does the Support Plan reflect the need for behavior support services? Source: Residential Habilitation Standards 4.0
RS2-03	Prior to the development of a behavior support plan, indirect assessment must be conducted, including an interview using the Functional Assessment Interview Form (O'Neill, et al., 2014) or another empirically validated functional assessment instrument - such as the QABF (Questions About Behavioral Function, Matson & Vollmer, 1995) - with two or more people who spend the most time with the person (can include the person) must include (or be supplemented by additional assessment documentation which includes) the following: 1. Description of problem behavior	A completed Functional Assessment Interview form or other empirically validated functional assessment instrument (and, if necessary, supplemental assessment documentation) containing the 10 items in this section must be available. If the QABF (or other empirically validated functional assessment interview tool) is used there must be information provided in the assessment results (via a note) that specifies where information on

	2. Listing of ecological and setting events that predict the occurrence and/or non-occurrence of the behavior 3. Listing of possible antecedents that predict the occurrence and/or non-occurrence of the behavior 4. Listing of possible consequences (access, escape/avoid, automatic) that maintain the problem behavior 5. Record of information on the efficiency of the problem behavior 6. List of functional alternatives the person currently demonstrates 7. Description of the person's communication skills 8. Description of what to do and what to avoid in teaching 9. Listing of what the person likes (potential reinforcers) 10. Listing of the history of the problem behavior(s), previous interventions, and effectiveness of those efforts	each component is located. Source: Residential Habilitation Standards 4.2.
RS2-04	Prior to the development of a behavior support plan, indirect assessment must be conducted, including the development of summary statements based on the Functional Assessment Interview (contains information on setting events, antecedents, problem behavior, and consequences)	Setting events, antecedents, problem behavior, and consequences must be specified in the functional assessment document. Source: Residential Habilitation Standards 5.1
RS2-05	Direct Assessment must be conducted to verify the indirect assessment information. It includes: Observational data collection forms and/or observational summaries that represent <u>two or more sessions</u> using A-B-C recording in direct observation for a minimum of: (1) <u>3 or more total hours or</u> (2) <u>20 occurrences of the target behavior(s).</u> If no problem behavior is observed, observational information must be summarized to describe contexts that support the non- occurrence of target behavior. If observational data do not verify the indirect assessment information, then the summary statements must be revised to correspond to the direct assessment data.	A summary must be included in the functional assessment (document) that includes the relative frequency of specific antecedents and consequences for individual problem behaviors. This can be either a table or narrative format. The functional assessment is a document that can be separate from the BSP (conclusions referenced in the BSP) in the BSP. In either case, the entire functional assessment document must be available. If during observations no target behaviors are observed, either summarized A-B-C data from staff observations or conduct additional observations that do include occurrences of the target behavior(s) must be included. Source: Residential Habilitation Standard 5.2
RS2-06	Behavior Support Plans must contain a description of the person and his/her background: 1) Name, age, gender, residential setting, 2) Intellectual and adaptive functioning, 3) Health concerns, 4) Mobility status, 5) Communication skills, 6) Typical activities and environments, 7) Supervision levels, 8) Preferred activities, items, and people, and	a) Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. b) Procedures for training DSP(s) must be documented in either the BSP, training materials, or training documentation. c) Documentation of DSP training must be present to indicate training prior to the effective date / implementation date of any addendum/amendment to the BSP. Documentation must specify: 1) training on observation and behavioral data collection system and on treatment procedures, and 2) retraining on 1if needed. *Note: N/A with explanation may be acceptable*

	9) Non-preferred activities, items, and people.	d) If opportunities to observe (a) antecedent, teaching, or consequence strategies for acceptable behavior, (b) response strategies to problem behavior, or (c) both are infrequent or not observed during a fidelity check, it would be sufficient to observe the DSP(s) practicing the BSP procedures by role-playing. *Note: If N/A, then explanation is needed* If the BSP addresses more than one setting (e.g., Day Program, Home, etc.), then the fidelity check should, on a rotating basis, be conducted in each setting addressed by the plan. Source: Residential Habilitation Standard 5.3
RS2-07	Behavior Support Plans must contain details of locations where BSP will be implemented and identification of program implementers.	
RS2-08	Behavior Support Plans must contain Problem Behaviors and Replacement Behaviors in terms that are observable, measurable, and on which two independent observers can agree.	a) Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. b) If opportunities to observe (a) antecedent, teaching, or consequence strategies for acceptable behavior, (b) response strategies to problem behavior, or (c) both are infrequent or not observed during a fidelity check, it would be sufficient to observe the DSP(s) practicing the BSP procedures by role-playing. Note: If N/A, then explanation is needed Source: Residential Habilitation Standards
RS2-09	Behavior Support Plans must contain a summary of direct assessment results.	c) Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. d) If opportunities to observe (a) antecedent, teaching, or consequence strategies for acceptable behavior, (b) response strategies to problem behavior, or (c) both are infrequent or not observed during a fidelity check, it would be sufficient to observe the DSP(s) practicing the BSP procedures by role-playing. Note: If N/A, then explanation is needed Source: Residential Habilitation Standards
RS2-10	Behavior Support Plans must contain objectives for each problem behavior, including: 1) Person's name, 2) Operational, measurable and observable way to describe behavior, 3) Conditions under which the behavior occurs or should occur, and 4) Criteria for completion (performance and time).	Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. Source: Residential Habilitation Standards

RS2-11	Behavior Support Plans must contain Competing Behavior Model for each class of problem behavior that includes function of problem behavior and replacement behavior based on direct assessment	Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. Source: Residential Habilitation Standards
RS2-12	Behavior Support Plans must contain objectives for each replacement behavior, including: 1) Person's name, 2) Measurable and observable way to describe behavior, 3) Conditions under which the behavior occurs or should occur, and 4) Criteria for completion (performance and time).	Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. Source: Residential Habilitation Standard 5.3
RS2-13	Behavior Support Plans must contain Support Procedures that include each of the following: 1) Setting Event/Antecedent Strategies 2) Teaching Strategies 3) Consequence Strategies 4) Crisis Management Strategies 5) Data Recording Method 6) Data Collection Forms	Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. Source: Residential Habilitation Standards
RS2-14	DSP(s) responsible for implementing a BSP must be fully trained to: 1) collect behavioral data, and 2) implement the BSP procedures	a) Collect behavioral data in accordance with the Residential Habilitation Standards 6.0 – 6.5. Source: Residential Habilitation Standards
RS2-15	Procedures for training DSP(s) on implementation must include: 1) written and verbal instruction, 2) modeling, 3) rehearsal, and 4) trainer feedback.	Procedures for training DSP(s) must be documented in either the BSP, training materials, or training documentation. Source: Residential Habilitation Standards
RS2-16	Documentation of DSP(s) training must accompany the plan and must include: 1) person's name, 2) date of initial training, 3) date of additional DSP(s) training, 4) names and signatures of DSP(s) trained, and 5) name of trainer and/or authorized secondary trainer.	Documentation of DSP training must be present to indicate training prior to the effective date / implementation date of any addendum/amendment to the BSP. Documentation must specify: 1) training on observation and behavioral data collection system and on treatment procedures, and 2) retraining on #1 if needed. Source: Residential Habilitation Standards
RS2-17	Fidelity procedures must occur quarterly and must document direct observation of DSP(s) implementing procedures according to the plan. Documentation must include: person's name, 1) name(s) of DSP(s) being observed, 2) date, location and time (including duration) of observation, 3) description of procedures observed, 4) directions and/or description for scoring DSP performance, 5) signature of observed DSP, and signature of the observer.	Note: N/A with explanation may be acceptable If opportunities to observe (a) antecedent, teaching, or consequence strategies for acceptable behavior, (b) response strategies to problem behavior, or (c) both are infrequent or not observed during a fidelity check, it would be sufficient to observe the DSP(s) practicing the BSP procedures by role-playing. If the BSP addresses more than one setting (e.g., Day Program, Home, etc.), then the fidelity check should, on a rotating basis, be conducted in each setting addressed by the plan. Source: Residential Habilitation Standards

RS2-18	Progress monitoring must occur at least monthly and rely on progress summary notes that include: a) Graphs that are legible and contain: i. Title related to behavior measured, ii. X- and Y-axis that are scaled and labeled iii. Labeled gridlines iv. Consecutive and connected data points, v. Legend for data points (when more than one type is used), and vi. Phase lines and labels for changes (i.e., programmatic, environmental, medical, and/or medication changes)	Monitoring is reflected in the monthly progress note. a) Graph must be available and contain all elements. A color graph is acceptable as long as the color copies are available to all members of the support team. b) The progress note should describe these items related to the desired outcome in the objective. c) The progress note should describe these items related to the desired outcome in the objective. May in some cases be "N/A". When "N/A" an explanation is needed. d) This would be documented by a dated, titled meeting sign- in sheet identifying the person, the reason(s) for lack of progress, and the revisions to BSP procedures that are to be implemented and DSP(s) to be trained for the revision, or justification for no revision. If this is not applicable to the case reviewed then "N/A" with explanation is sufficient. Signature sheets must be in the file. Source: Residential Habilitation Standard 5.5
RS2-19	Progress monitoring must occur at least monthly and rely on progress summary notes that include a visual analysis that includes description of the level, trend, and variability of each behavior along with discussion related to programmatic, environmental, medical, and/or medication changes.	
RS2-20	Progress monitoring must occur at least monthly and rely on progress summary notes. Details of future (planned) implementation must be described and include any barriers that need to be addressed (e.g., inaccurate implementation, incomplete data collection, etc.), and any changes that need to be made to the procedures based on lack of progress or deteriorating performance.	
RS2-21	If fidelity procedures reveal that the BSP is being properly implemented and data properly collected, yet no progress is observed for the problem behavior, replacement behavior, or desired behavior for 3 consecutive months, then the Functional Assessment and its summary must be revisited with input from program implementers to determine the benefits modifying or augmenting BSP procedures or enhancing DSP training	Note: If the fidelity procedures reveal that the BSP is not being properly implemented or data are not being properly collected, then re-training of the DSP(s) is sufficient, and no team meetings or plan modifications are required.
RS2-22	When psychotropic medication is given to address problem behavior that poses a significant risk to the person (i.e., self-injury), others (i.e., physical aggression) or the environment (i.e., property destruction) a Behavior Support Plan that addresses the specific behaviors for which the medication is given must be present.	A Behavior Support Plan (BSP) is not required when documentation/ data clearly indicates that the person is not exhibiting behavior that poses significant risk. A BSP is not required when evidence supports that the person has reached the lowest effective dosage based on data. Source: Residential Habilitation Standard 5.5, Directive 600-05-DD
RS2-23	As needed by the person, but at least quarterly, psychotropic medications and the BSP are reviewed by the prescribing physician, the professional responsible for behavioral interventions, and support team.	Source: Directive 600-05-DD

RS2-24	The specific behaviors/psychiatric symptoms targeted for change by the use of the Psychotropic medication are clearly noted.	Source: Directive 600-05-DD
RS2-25	The Psychotropic Drug Review process provides for gradually diminishing medication dosages and ultimately discontinuing the drug unless clinical evidence to the contrary is present.	Source: Directive 600-05-DD
RS2-26	Consent for health care or restrictive interventions is obtained in accordance with 535-07-DD.	Source: Directive 535-07-DD
RS2-27	When prescribed anti-psychotic medication or other medication(s) associated with Tardive Dyskinesia, monitoring is conducted.	Note: If medication associated with Tardive Dyskinesia is prescribed at the time of admission, a baseline T.D. score is obtained within one month. Source: Directive 603-01-DD
RS2-28	Restraints are employed only for the purpose of protecting the person or others from harm and only when it is determined to be the least restrictive alternative possible and a GER is entered in Therap by the end of the shift.
